

Vinyl Recommendation

System Size (in inches) - _____ "H x _____ "W

Subtract 5 inches - - 5 inches - 5 inches

Vinyl Size (in inches) - _____ "H x _____ "W

Subtract 6 inches - - 6 inches - 6 inches

Live Art Area (in inches) - _____ "H x _____ "W

Finishing: For best results, edges should be stitched, hemmed, or welded to avoid edge-curl. Do not use grommets.

Printing: Artwork and Final printing should include a mark-line boarding the entire graphic ($\frac{3}{4}$ " inside the banner edge). If desired, the hole may also be marked or inserted as part of the printing process.) If using BannerFrame with cover sections, remember that approximately 3" of the vinyl perimeter will be covered by the BannerFrame Cover. As such, do not print AD copy within 3" of the banner edge.
